Stephanie Evert

I am Chair of Computational Corpus Linguistics at Friedrich–Alexander–Universität Erlangen–Nürnberg, Germany (FAU <<https://www.fau.eu/>>). I am also a transgender woman, so the first twenty years of my research have been published under the name XStefan EvertX. You can find out more about me and my research by following the navigation links at the top.

Key research topics: quantitative methodology of corpus linguistics X digital hermeneutics X corpus tools and language technology X co-occurrence patterns and distributional semantics

News

- 01.11.2021: My Web site has finally been updated to show my true identity as Stephanie Evert. X

Colophon

Copyright (C) 2005–2022 by Stephanie Evert. These pages were hand-written in Perl’s POD (*plain old documentation*) format and translated to HTML and PDF with the help of `Pod::Simple::HTML` and `Pod::Man`. The list of publications was (mostly) automatically generated from a bibTeX database by a short Perl script.

`perldoc Stephanie::Evert` is the command that you would use to find out everything you need to know about me if I were a Perl module (and then you’d hopefully want to use `Stephanie::Evert` :-). By the way, you *can* use `perldoc` to read the original POD versions of these pages.
